

It was an absolute pleasure to work with David from the get-go. We gave him a huge responsibility of producing all the film content for The Faith & Belief Forum Virtual Fundraising Gala 2021. He understood the brief straight away and got on to the tasks at hand. This initially consisted of interviewing many of our stakeholders across different faith and belief backgrounds. Despite the challenging circumstances of filming in a pandemic David worked in COVID sensitive ways ensuring that all interviewees felt comfortable and at ease.

He produced five films for the gala mostly creating new content and editing some pre-existing footage all within a two- month time span. We were thrilled with the quality and content of the films which moved many of our staff to tears. The videos articulate beautifully what our programmes are trying to achieve and the music that David added expertly enhanced the impact.

David is passionate, determined, ambitious and professional. He was very communicative and responsive throughout the process working consistently hard to achieve the best results. He shows very good attention to detail and brings a thoughtful artistic flare to his work. On behalf of the team, we would highly recommend him and look forward to working with David in the future.

Eli Tamir

Fundraising and Development Coordinator
The Faith & Belief Forum
